ACT ► IMPLEMENT ► 90 DAYS

**A fast and straightforward approach to implementing actions in 90 days.**

IMPACT is the latest tool brought to you by the Bridges Business Consultancy Int team, developed over the last four years. It is a practical and easy to use structured approach for implementing actions in 90 days that includes guides, templates and tools that ensures the successful execution of actions.

At the end of a typical workshop in an organization the team decides what needs to be done, by when and by whom. The action plan is usually the last item on the agenda and is rushed through so that everyone can leave on time. In theory, it is a fait accompli. In practice, it's a different story.

On returning to the organization and despite the team members best intentions, nine out of ten times the action plans do not get completed.

Team members are unclear about what they have to do; or team roles are not clearly identified; or team members are not committed; or they get caught up in the day-to-day business and lose focus.

---

**Most of us start out with the right intentions but somewhere between thought and action, we lose focus, we lose direction, we lose commitment.**

---

There are many reasons why teams fail. IMPACT is designed to directly address the main issues.

**At the heart of IMPACT is six Action Team Meetings (ATMs), held every two weeks and the project planning support to ensure team success. You will receive a uniquely designed bag that includes: Team Mentor's, Leader's and Member's Guide; IMPACT Posters; Certificate; Wobblers; IMPACT Pens; USB Flash Disk containing templates and soft copies of material and other materials.**

**\*Retainer covers:**

- Bridges half-day Brief
